Subject: Judge Auden Grogins

Auden Grogins is eminently qualified for a position on the Superior Court, with twenty-four years of experience as an attorney, representing clients in a host of areas of civil and criminal litigation, and six years' service on the Judiciary Committee of the General Assembly.

A tiny, vociferous minority, increasingly estranged from mainstream America, has mounted a shrill and bitter campaign against her confirmation, because she sponsored a piece of legislation in the wake of the Sandy Hook massacre, calling for some moderate restraints on gun ownership.

The NRA has held this nation hostage too long. It has wielded an unconscionable degree of power over elected officials at every level. Please do not discard a very highly qualified judge on its say-so.

sincerely,
Alison Loris
mother and grandmother
